PROFILE

Recently completed my bachelor's degree in Computer Sciences, I am a hard worker, a team worker and love to work with on interesting projects. Will chip in ideas and work on my on parts with full effort and sincerity. Apart from this I have worked in an event management company 'Kaizen' as the media head. I am also a huge football (soccer) fan. Am also an occasional gamer. I am open to exploring new places and cultures which is why I love traveling. Currently want to pursue a career in Computer Vision.

EDUCATION

COMSATS University Islamabad, Lahore Campus (2015-2019)

- Bachelor of Science in Computer Science

Punjab Group of Colleges (2013-2015)

- Intermediate in Computer Science (Physics)

Beaconhouse School System (2011-2013)

- Matriculation (Computer Sciences)

CERTIFICATIONS

- Deep Learning Specialization by deeplearning.ai

PROJECTS

EyeSpy (Final Year Project)

- Abnormal event detection using 3D Convnets.
- A desktop application which creates snippets of an abnormal event from a CCTV footage according to predicted scores.
- 1st Position in CS-FYPs

QuickSilver (Web Semester Project)

- A Web-RTC based online video conferencing website.

Hotel Management System (Database Semester Project)

- A database management system for small hotels.

SKILLS

- Good communication skills.
- Python development language.
- Understanding of various Data Analysis and Visualization libraires such as Pandas, Matplotlib and Seaborn.
- Understanding of various Deep-Learning libraries such as Keras, Numpy and Tensorflow.
- Uderstanding of Machine learning algorithms such as k-NN, Decision Trees, Logistic Regression and SVM etc.
- Good Programming concepts.
